

PROBLEM SOLVER

Many Customers Have Experienced The Following:

DRUMMOND™
A LAWSON PRODUCTS BRAND

PROBLEM:

Maintaining urinal drain lines and managing restroom odors

- Urinal drains run slowly and sometimes overflow due to uric salt buildup
- Persistent foul odors emanating from urinals
- Drain treatment products that are not effective on urinal drains
- Time-consuming and costly removal of urinals and mechanical drain rodding to restore flow
- Urinal drain restrictions recur

SOLUTION:

Drummond™ Free-Flow Ultra-Strength Urinal Drain Control

- Industrial-strength formula designed to break through uric salt, mineral and rust deposits in urinals to restore free-flowing drains
- Attacks, breaks down and flushes away the source of foul urinal odors
- Specifically formulated to treat the uric acid salt deposits that form restrictions in urinal drains
- Prevents the expense and downtime of snaking a urinal drain due to the buildup of scale and uric acid salt deposits
- Clings to drain lines and leaves a non-stick, protective coating to prevent future buildup

“Let me show you how it works”

Attacks uric acid salt buildup, scale and odor

APPLICATIONS:

- Recommended for urinals in:
 - Hotels and motels
 - Banquet halls
 - Manufacturing plants
 - Sports arenas
 - Schools
 - Other commercial, institutional and industrial facilities
