

PROBLEM SOLVER

Many Customers Have Experienced The Following:

PROBLEM:

With ordinary brass fittings

- Time spent looking for proper size part
- Difficult and time-consuming installation
- Specific styles required for specific applications
- One-time use
- Difficult to properly align fittings to tubing

SOLUTION:

Instant Air Brake Fittings

- Instant connect and disconnect – savings of 80% on labor
- D.O.T. approved – used for air brake assemblies and everyday applications
- Reusable – no need to replace fitting after each use
- 360° swivel elbows and tees – fitting is aligned after it has been tightened

“Let me show you how it works”

FEATURES:

- D.O.T. approved
- Instant connect and disconnect
- Reusable
- 360° swivel elbows and tees
- Can be used on nylon lines
- Can be tightened internally with hex key
- Working temperature: From -40°F to +200°F (-40°C to +93°C)
- Working pressure: 250 PSI (17 Bar)

APPLICATIONS:

- Air horns
- Air-operated mirrors
- Wiper motors
- Shutter stats
- Air-operated clutch fan
- Fifth wheel
- Operating gauges
- Air-operated seats
- Air toggle switches
- Heaters
- Window opening and closing cylinders
- Door locks
- Cab tilt cylinders
- Main frame air lines
- Gear shift
