

Technical Data Sheet

Powr On Plus Electrical Contact Cleaner

Overview

Powr On Plus is designed for safe and effective use on energized electrical circuits and equipment. Quickly dissolves and lifts away dirt, oils, grease and corrosion, restoring electrical system performance. Evaporates quickly, leaving no residue.

Features/Benefits

- Non-flammable
- Safe for use on energized circuits
- 0% VOC by weight
- Fast evaporation
- Removes dirt, oils and other contaminants
- Leaves no residue
- Dielectric Strength: 38,000V/mil

Applications

- Cleaning energized/powered circuits and contacts

Method of Application

- Aerosol

Identification

- Faint ethereal solvent odor

Size

- 16 Oz. Can Size; 10 Oz. (397g) Net Wt.

Directions for Use

Spray 4 to 12 inches from surface to clean. Wash parts from top to bottom, allowing the liquid to flush away dirt and dissolved contaminants. For precise applications use the attached extension tube.

Technical Specifications

- Form: Aerosol
- Color: Water white
- Water Solubility: Negligible
- Odor: Faint ethereal solvent odor
- Specific Gravity (Concentrate): 1.4231
- Evaporation Rate: >1 (butyl acetate = 1)
- Boiling Point (Aerosol): -15°F to +124°F (-16°C to +51°C)
- Reportable VOC Content: 0% by weight; 0.00 lbs./gal.; 0g/L
- Shelf Life: Minimum one year
- HMIS: H:1 F:2 R:0
